

Environmental & Engineering Geoscience

Volume 23, Number 3, August 2017

Table of Contents

- 153 Sediment and Phosphorus Inputs from Perennial Streams to Lake Whatcom, Washington State**
Katherine R. Beeler and Robert J. Mitchell
- 165 Rockfall Hazard Rating System: Benefits of Utilizing Remote Sensing**
El Hachemi Bouali, Thomas Oommen, Stanley Vitton, Rüdiger Escobar-Wolf, and Colin Brooks
- 179 A New Application of CurvaTool Semi-Automatic Approach to Qualitatively Detect Geological Lineaments**
Sabrina Bonnetto, Anna Facello, and Gessica Umili
- 191 Effects of Igneous Intrusions on Coal Port Structure, Methane Desorption and Diffusion within Coal, and Gas Occurrence**
Ming-Yi Chen, Yuan-Ping Cheng, Hong-Xing Zhou, Liang Wang, Fu-Chai Tian, and Kan Jin
- 209 Channel Geomorphic Evolution after Dam Removal: Is Scale Important?**
Timothy Land, Arpita Nandi, and Ingrid Luffman
- 221 A Proposed Risk-Based Strategy for Bridges Potentially Affected by Rock Scour**
William L. Niemann, Issac C. Wait, and Jeffrey R. Keaton
